

ASKS INCORPORATION OF ROADS BY U. S.

Cummins Bill Would Shape
National Charters Like
Many City Franchises.

Senator Cummins is preparing a bill, likely to attract wide notice, which will provide for Federal incorporation of the railroads and the taking over by the roads, nationally incorporated, of the various properties under State charters.

The bill will contain two important provisions, one that the Interstate Commerce Commission shall supervise the properties taken over by each Federal incorporation, in order that a fair measure of competition among the roads shall be preserved; and, second, that the Government may at any time take over the railroads on the basis of value to be fixed either by arbitration or condemnation.

"To enact such a law," said Senator Cummins, "would be the greatest advance we could make in railroad legislation short of actual Government ownership."

With Strings On Them.

It would put the charters of the railroads on the same basis as the charters granted by municipalities to public utilities, which contain provision for public ownership when the municipality chooses to take a utility over.

Senator Cummins pointed out that the foremost railroad attorneys and officials had recently come to the conclusion that Federal incorporation was not only feasible, but desirable and that roads nationally incorporated could take over properties chartered in the States without difficulty or hindrance.

Vice President Harris, of the New York Central; Judge Lovett, of the Union Pacific; and other eminent railroad men this week before the Senate Interstate Commerce Committee have taken this view. The question of how to take over the properties incorporated in the States has generally hitherto been regarded as a big legal obstacle in the way of national incorporation.

The most eminent railroad attorneys no longer regard it so, and Senator Cummins himself inclines to the view that the properties chartered by the States can be taken over.

Would Overcome Confusion.

That the legislation he proposes would have the effect of overcoming the confusion now caused by continued clashing and collision between Federal and State authority over interstate roads, and at the same time getting the railroads in shape so the transition to Government ownership, if believed desirable, would be feasible and practicable, is emphasized by Senator Cummins.

He is convinced the Rayburn bill, which he says gives the Interstate Commerce Commission power to act when railroads shall issue securities, and hence the power to develop and prevent, without at the same time making the Government responsible for the successful conduct and operation of the roads, will not work either for the public or the railroads.

"The moment we get away from a situation where the railroads are deprived of the power to develop as they see fit, with merely such Federal supervision as insures fairness and honesty toward the public, then there is no stopping place this side of public ownership," said Senator Cummins.

Three Cup Defenders to Have Contest Wednesday

NEW YORK, June 5.—Elimination races in the trials to select a defender for the America's Cup against Sir Thomas Lipton's Shamrock IV, will begin together the three American yachts Wednesday. The Resolute, the Vanitie, and the Defender will sail over the Sandy Hook course.

Tomorrow the first two yachts will race over the Larchmont course.

Yesterday's race Captain Dennis, of the Vanitie, outmaneuvered Captain Adams, of the Resolute, in a beautiful start in a heavy sea, and both yachts were fighting in a howling blow when the Vanitie was forced to abandon the race when two men were swept overboard by a wave. Both were rescued.

Two Imprisoned Under Capsized Locomotive

NEW YORK, June 5.—Caught in the cab of an overturned locomotive, an engineer and fireman had a narrow escape from death while working on the Beach subway extension in Brooklyn.

Frank G. Isenberg, the engineer, and John E. Tuttle, fireman, were in cab of a forty-five-ton locomotive that was pulling a six-car dirt train when the slippery rails caused the engine to capsize.

Workers employed on the cut succeeded in releasing the men imprisoned when they were not injured.

"Gets-It" for Corns On Your Piggy-Wiggies!

Quit Puttering With Corns. Use This Sure, New-Plan Corn Cure.

A few drops of "GETS-IT," the biggest seller in the world today of any corn remedy, is enough to spell pain and doom to the fiercest corn that ever cemented itself to a toe.

Goodbye, Johnnie. You apply "GETS-IT" in two seconds—no fussing with plasters that don't stay put, with knives that make corns "pull," and make the toe beefy and raw, with knives, scalars, razors, and diggers that make corns grow faster and that may cause blood poisoning from corn cutting and corn-bleeding. "GETS-IT" shrivels up corns; they come right off that's the new principle. It's just common sense. No more corns. "GETS-IT" is safe, and never hurts the flesh. Get rid of corns and calluses.

"GETS-IT" is sold at a 25-cent bottle by all druggists, or sent direct, if you wish, from E. Lawrence & Co., Chicago.

"GETS-IT" is sold in Washington by O'Donnell's Drug Store, People's Drug Store, P. G. Affleck—Adv.

STEAMER ON REEF, PASSENGERS LEAVE

The Northland Goes Aground Off
New London, Conn., During
Heavy Fog.

NEW LONDON, Conn., June 5.—Fast ashore on Bartlett's reef, twelve miles from here on Long Island sound, the Maine Steamship Company's vessel Northland, today loaded her seventy-five passengers on the wrecking tug Tasco for transportation here en route to Portland for which port the vessel sailed last night from New York.

The Northland struck about midnight. At first she sent out wireless calls for a revenue cutter, but later said one was not needed. At no time was the vessel in danger, so far as her wireless calls indicated.

She probably will be aided to get ashore by the Tasco, if not badly injured. Reports that her hold is full of water had not been verified today.

The Northland is a steel built single screw steamer of 2,721 tons and 394 feet long. She was built at Wilmington, Del., in 1910, and has seven watertight safety bulkheads.

The Northland was driven from her course by a northwest gale accompanied by a heavy fog.

When the steamer arrived the sea was calm and the transshipment of passengers was made with little trouble.

Walker Will Be Host To Oldest Inhabitants

Members of the Association of Oldest Inhabitants are anticipating with pleasure the feast this evening at the headquarters of their organization in the old Union Engine House, Nineteenth and H streets northwest. Frank H. Walker will be host at a feast of clam chowder and other delicacies prepared for the occasion.

A picture of the first reunion of the National Society of California Pioneers held at Marshall Hall, Md., is to be presented to the association by Joseph I. Keefe. The picture was owned by the late W. C. Dodge.

WILSON GETS RUSH WIRE FROM NIAGARA

Message of Importance Delivered
to President on Board the
Mayflower.

ANNAPOLIS, Md., June 5.—Conflicting President Wilson when he arose on the Mayflower today, en route here from Washington was an important message from the A. B. C. mediators. While Secretary Tammity would make no announcement concerning the contents, it was believed that the message carried with it an insistent protest from the mediators regarding the ammunition ships now speeding to Tampico.

That the message was grave was interpreted from the fact that Washington felt it necessary to send it to the President's ship. It was considered possible that the mediators demanded the stopping of the Antilla outside Tampico as the price for further mediation.

Head of Pinkertons In New York Is Dead

NEW YORK, June 5.—John Cornish, sixty-seven years old, manager of the New York branch of the Pinkerton Detective Agency, died last night at his home in Brooklyn from cancer of the stomach. Before entering the Pinkerton service he was treasurer of the P. T. Barnum Bowery Coliseum. He served eight years in Boston as superintendent of the Pinkerton office before being made manager of the Manhattan branch.

STORM KILLS FOUR AND INJURES MANY

Rain, Hail, and Lightning Destroy
Growing Crops and
Other Property in Ohio.

CLEVELAND, June 5.—Four known dead, many injured, heavy damage to growing crops and other property, and demoralized wire service was the result today of the most severe electric, wind, rain, and hail storm northern Ohio has experienced in many years. James Ashburger, of Attica, was killed by a falling tree; Adam Greene, of New Washington, was killed by lightning; Robert Laporte, fifty-eight, of Tontogeny, died of heart disease when a crash of thunder frightened him, and a rural mail carrier of New London, was killed by lightning near Olona.

Authors Ask President To Intervene in Strike

A petition signed by 30 authors and settlement workers of New York city, asking the President to intervene in the Colorado strike situation, is today in the possession of the Chief Executive. Although presented to him yesterday after the unveiling, it did not become known until today because of the quiet, diplomatic way Mrs. Allan McKimborough, of Greenwood, Miss., presented it.

Husband Is Captured By Girl's Handwriting

NEW YORK, June 5.—Seven years ago, Benjamin H. Cohen fell in love with Hannah Sperber's handwriting. She was nineteen and lived in San Francisco. Cohen was a Brooklynite. Now they are married.

How to Beautify the Hair

A Simple and Inexpensive Home Method.

The hair is like a flower—a little care and proper nourishment does wonders. Just as a plant without air and water withers and dies, so will the hair go if not given proper nourishment. The scalp must be perfectly healthy and free from dandruff, as the scalp is to the hair what good soil is to plants and flowers.

If your hair is not pretty; if it is losing its color, too dry, matted, falling out, or if the scalp itches and burns, you can overcome all of these conditions by using Parisian Sage, which supplies every hair need. It soaks right in to the hair roots, stimulating them and furnishing the nourishment that is needed for the hair to grow not only long and heavy, but fluffy, soft, lustrous, and gloriously radiant.

You can get a bottle of this inexpensive, yet delightful and helpful, hair tonic from O'Donnell's Drug Store or at drug and toilet counters everywhere. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled hair tonic will surely give your hair new life and beauty.—Adv.

The U. S. Government Has Awarded The Globe Wernicke Co. the Exclusive Contract For All Wood Filing Cabinets and Sectional Book Cases

Government experts have placed the stamp of approval on Globe-Wernicke construction.

Our steel body drawer was accepted owing to the fact that these experts recognized the additional strength of this superior construction.

Swelling, shrinking and sticking have been absolutely eliminated under all climatic conditions through the use of the steel body drawer.
